

PREM MANN

WEB APPLICATION DEVELOPER

Profile

Experienced Web Developer specializing in API development, UI/UX design, and full-stack testing. Skilled in building scalable applications with React.js, Laravel (Eloquent), and PostgreSQL. Experienced in test automation with Cypress and improving system performance. Expanding knowledge in full-stack development with Next.js, PostgreSQL, and Prisma ORM, while also learning to use Docker for containerized deployments. Passionate about researching new technologies and driving innovation. Strong team player in Agile environments, ensuring timely and high-quality software delivery.
